

METAPHYSICAL BIBLE INTERPRETATION

Living In Heaven

Revelation Revealed

Part 2

THE ALPHA & THE OMEGA

The introduction to the book of Revelation (1:1-20) is a 3 fold expression of 7 statements (verses 1-3, 4-8, 9-20). See part 1 for discussion of the 7. To understand the 3, I will discuss a trinity of

trinities: Father, Son, Holy Spirit; Spiritual, Mental, Physical; Mind, Idea, Expression.

Verses 1-3 exemplify this symbology which is compounded within the introduction. "THE REVELATION OF JESUS CHRIST (Son, mental or soul, idea), which God (Father, spiritual, mind) gave him to show to his servants (Holy Spirit, physical, expression) what must soon take place; and he made it known by sending his angel to his servant John, who bore witness to the word of God (Father, spiritual, mind) and to the testimony of Jesus Christ (Son, mental, idea), even to all that he saw. Blessed is he (Holy Spirit, physical, expression) who reads aloud the words of the prophecy, and blessed are those who hear, and who keep what is written therein; for the time is near (now is the time and now and now and now...)"

The Holy Trinity: God the Father, the Son and the Holy Spirit gives us a framework for understanding the nature of God, our relationship to God and how God does its works through us. The Father: absolute presence and power is greater or more than the Son. The Son is the heir of the Father and has access to

all that the Father is. The Holy Spirit is the whole spirit of God through which the Son expresses the Father in the relative realm. The absolute expresses into the relative through the Son.

The Trinity in Man is understood to be the Spiritual, Mental & Physical. These are the realms within which we simultaneously exist and express, and must learn to align in order to experience the life abundant. Spiritually we are one with God, we have access to all that God is. Our mental realm is the pivotal key which can either look to God/Spirit or the Physical as our source. The physical is the expression of the Mental which is flavored by its direction of focus.

The Metaphysical Trinity encompasses the Law of Mind in Action. Within Divine Mind (God) are infinite Divine Ideas. When our minds lay hold of a Divine Idea or any idea and hold or focus upon it we empower it to come into expression. Thoughts held in mind, with emphasis on the held, produce after their kind. Our world is an expression of the beliefs and ideas that we have laid hold of and continue to dwell upon.

But "THE REVELATION... must soon take place; and ...blessed are those who hear... for the time is near." Blessed are we when we put the spiritual in its proper place of priority in our lives. "I am (God within is) the Alpha and the Omega (the first and the last)." Right here and now we can transform our lives by putting God/Spirit first in all that we do, always.
